“Artists on Artists is inspired by the late photographer Marti Friedlander. She showed us that artists are fascinating subjects, but they’re often behind the frame.”

Curator and exhibiting artist, Lindsey Horne

The audience follows the artworks around the exhibition to see how each artist has painted, photographed and created work of another artist. This exhibition shines a light on the artists and puts them in the frame as the subject.

“It’s a strange feeling to have the tables turned.

As an artist you’re so used to working with subjects,
directing them, photographing them, painting them,
observing them. Now you’re on the receiving end of that.”

Featuring established and emerging artists from Aotearoa New Zealand, including: Felix Jackson, Mika Turnbull, Ali Pang / AAPPA-PAPPA, A.J Manaaki Hope, Belinda Whitta, Bonnie Wroe, Robbie Motion, Lindsey Horne, Waiaio Ngā Mōrehu Elkington, Amit Dutta, Arie Hellendoorn and Javier Murcia.
